Life Safety Fire Risk Assessment:

Thank you for your enquiry relating to the provision of a life safety fire risk assessment for your premises. In order to assist us in preparing an accurate quotation for your consideration could you please provide as much of the following information as possible.

The life safety fire risk assessment carried out by ACT is an iterative, methodical and collaborative process, based upon the PAS 79:2020 Fire Risk Assessment Part 1 & 2 Codes of Practice. It is validated and peer reviewed in accordance with the requirements of the BAFE Life Safety Fire Risk Assessment SP205 Accreditation scheme, which in itself is verified via the UK Accreditation Scheme (UKAS).

Images are obtained during the site visit and incorporated into the fire risk assessment, as required, to provide context and supportive visual representation of our findings.

Business name & address:	
Point of contact, contact number and email address:
